Report of the School Board.

To the Citizens of the Town of Mason :

In viewing over the work that has been done in our schools during the past year, we feel justified in saying that there has been good progress made in the several branches of study. We have been successful in securing teachers that are fully competent to handle the work that was required of them.

The scholars in No. 4 were conveyed to No. 3, those in No. 5 to No. 1 (except the winter term,) the Boynton children to Wilton, those in No. 6 to Ashby in the spring. School was kept in the fall and winter in the No. 6 house, but as there will not be enough scholars for a school this spring, we think it is best to send what there is to Ashby providing we can make arrangements to that effect.

Owing to the small number of scholars that attended the Union school, it was considered best by the school board of Greenville and Mason to close that school for the present, consequently your committee made arrangements with the Greenville board to send our scholars to the school in the village where they have a far better chance to get an education than we could possibly give them if we continued the school as in the past and at a very much less expense to the town.

We have introduced Raubs' Arithmetic, published by the Werner School Book Co., to take the place of the Bradbury-Eaton Arithmetic, which has been in use in our schools so many years.

We are very sorry to say, but it is a fact, that if the scholars decrease as fast in the next few years, as in the past, the time will soon come when we shall scarcely have enough scholars to make a good respectable school at the center.

Desiring to serve the citizens of Mason for the best interests of all concerned, we should be glad to receive suggestions from any who are interested in the success of the schools in this town.

Respectfully submitted,

L. W. MITCHELL,
A. O. CHILDS,
A. B. EATON,

School Board of Mason.
